## ENCLOSURE LIGHTS

The LED 025 light series is suitable for all types of panels and enclosures, especially where space is at a premium. These lights have a very long service life due to the use of LED technology. They are available with powerful non-slip rubberized magnets allowing them to be easily positioned in any steel enclosure. Screw and clip mounting are also available as options. The power output allows up to 10 lights to be connected to each other (daisy chain) with both the input and output plugs snap-locking into place.

| Power Consumption | max. $11 \mathrm{~W} / 16 \mathrm{~W}$ |

| Protection Type/Class | IP20 / II (double insulated) |
| Approvals | UL File No. E164102 / EAC |

Mounting options: The lights are available with magnet mount for easy positioning in any steel cabinet or enclosure. Other options are the LED 025 with screw mount, and specifically designed clip holders for clip mount of the LED 025.

A) On/off switch light w/magnet or screw mount.
B) On/off switch light w/clip mount.

- Energy saving LED technology
- Wide voltage range
- Integrated power unit
- Magnet, screw or clip mount
- Wide variety of connections
- On/off switch or motion sensor

 These can be positioned anywhere in the cabinet by simply screwing the holders to the cabinet wall. The light is snapped into the clip holders and can be turned in both directions. With a total rotation angle of $180^{\circ}$ it provides perfect illumination within the cabinet or enclosure.
